Makes Scents

Ideal for your bedroom, bathroom or living room, Arica Inc.'s latest scents will surely grab your nose's attention. Just in time for winter, Champagne and Essence of Winter are this year's holiday aromas. Champagne, a combination of citrus and floral notes complemented with accents of pistachio fruit and vanilla, and Essence of Winter, inspired by thoughts of green spruce and fir, accented with touches of sweet pea, mandarin and sandalwood. Made in Italy, these fragrances fill the room by diffusing through 6 to 12 inch reeds in a striking but an

occupying way. Not only do we love the packaging, but we also think they make perfect stocking stuffers. Available at *Oron*, 1151 101 Street, P.O. Box 7776.
